Professional Summary

Cybersecurity professional with hands-on experience in web application and network penetration testing, vulnerability assessment, and IT security operations. Currently working at Cigure24, with practical experience in Microsoft Entra ID, Microsoft Intune, and Microsoft Defender, along with IT support and system administration. Skilled in reconnaissance, enumeration, vulnerability identification, security testing, and documentation across Linux and Windows environments. Experienced in both offensive security and enterprise security operations through professional work, CTF competitions, and cybersecurity labs.

Technical Skills

Web Security: OWASP Top 10, Web Application Penetration Testing, Authentication & Access Control Testing, Vulnerability Assessment

Network & System Security: Network Scanning & Enumeration, Active Directory Fundamentals, Lateral Movement Concepts, Packet Analysis, Linux & Windows System Administration, Privilege Escalation

Security Concepts: Reconnaissance, Footprinting, Server Exploitation, Vulnerability Identification, Security Testing Methodologies

Tools

Burp Suite • Nmap • Metasploit • Nikto • BloodHound • Wireshark • Aircrack-ng • Dirsearch • Gobuster • Netcat • Hydra • Microsoft Intune • Microsoft Defender • Microsoft Entra ID • Microsoft Automate

Work Experience

Cigure24 — Security & IT Analyst Intern

- Worked with Microsoft Entra ID, Microsoft Intune, and Microsoft Defender for identity, device, and endpoint security.
- Provided IT support, system administration, user access, and device troubleshooting.
- Performed web and network penetration testing, including reconnaissance, enumeration, scanning, and vulnerability assessment.

CTF & Practical Experience

- Participated in 5+ Capture The Flag (CTF) competitions including ESCHATON, Pragyan, Nullcon Goa HackIM, Pascal, and CyberQuest focusing on web and network security challenges.
- Completed 20+ TryHackMe labs and practiced web application security through PortSwigger Web Security Academy and Hack The Box labs.
- Practiced vulnerability discovery and submitted bug bounty vulnerability reports while exploring real-world security issues.
- Currently preparing for the Hack The Box Certified Penetration Testing Specialist (CPTS) certification.

Education

2022 – 2024: Master of Computer Applications (MCA)

Oriental University, Indore

2018 – 2021: Bachelor of Computer Applications (BCA)

Dr. A.P.J. Abdul Kalam University, Indore

Certifications

- Certified Ethical Hacker (CEH) Expired
- Certified Red Team Operation Management (CRTOM)
- Armour Infosec Certified Linux Server Administrator (AILWSA)
- Armour Infosec Certified Windows Server Administrator (AICWSA)
